## PLAYING CARD CONSTRUCTION!

RESEARCH!  
INVESTIGATE!  
PLAN!  
TEAMWORK!  
CONSTRUCT!

### PLANNING:

Inspired by Brian Berg, champion card builder!  
Examine as a team the basic design lines of any man-made structure. Each person provides sketching lines and clean lines. Utilize the iPad App "CUBITS" to rotate your structure for study.

### CONSTRUCTION:

As a team, build the foundation and the basic structural supports from a deck of playing cards. Folding, Cutting, and Gluing is allowed. Ensure Safe practices with Hot Glue Guns. Rotate roles within the team!

### POSTER TEAM PRESENTATION:

The poster must state the facts:

NAME of the Structure

WHO Designed it?

WHEN was it erected/completed?

WHERE is it located?

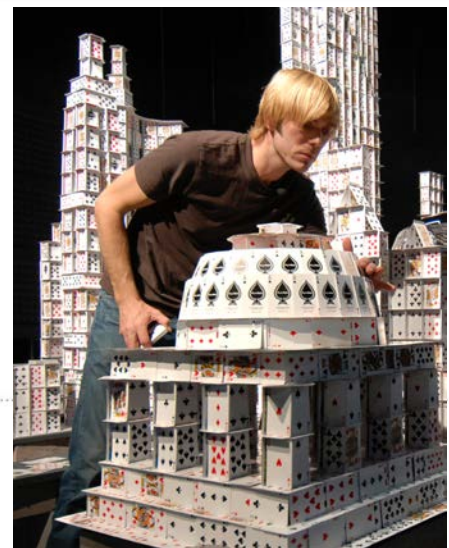

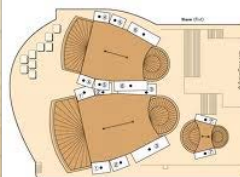

WHAT is it's purpose or function?

Describe WHY it is prevalent as "Art?"

EXPLAIN notable details from building materials, to form design, to specific elements to hidden secrets or stories behind the process!

\*POSTER may have pictures as well!

It will be presented with your sculpture!

BRIAN BERG, CHAMPION and RECORD HOLDER

MAN has always  
created great things  
inspired from nature  
and culture!
